

EDUCATION DELIVERED IN THE WORKPLACE

Arjo Clinical Education

At Arjo, we believe that empowering movement within healthcare environments is essential to quality care and quality work.

Clinical education is available to support safe dignified handling and healthier outcomes for people facing mobility challenges.

Our education team is committed to supporting you by providing education on various topics delivered at your convenience, at a time and place that works for you.

Arjo clinical topics

- Venous thromboembolism prevention
- Pressure injury prevention
- Falls prevention and management
- Bariatric care
- Early mobility
- Hygiene
- Using manual handling equipment in the workplace
- Other? Let us work with you to develop education topics that meet your current needs.

Clinical education to ensure best practice

The Arjo clinical education specialists bring wide-ranging experience in nursing and healthcare to support your workplace by providing education on best practices to empower you to deliver efficient, quality care.

Education tailored to meet your needs

Inservice/Product Training

Our team of sales specialists and clinical educators are dedicated to providing clinically relevant equipment training on all equipment purchased. Training can be delivered at a time and of a duration that suits you

Clinical Education

Our education team provides clinical education through best-practice evidence-based learning. This education can be provided at unit or facility level and can be delivered in short or long sessions to support your needs. During this session, we can also include product training if time allows. Popular topics include Venous Thromboembolism and Pressure Injury Prevention.

Hands-on Training

To support your equipment purchase, Arjo can offer additional training in the clinical application of the equipment provided.

Workshops

Arjo can support your education days by delivering clinical education tailored to your needs

ACN Accredited Workshops (ACE Training)

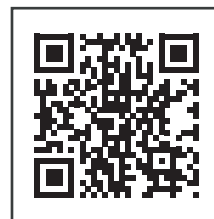

Arjo has a variety of educational workshop packages that can be delivered to your facility or can be held at your local Arjo Showroom. These programs can be run as a whole-day workshop or can be tailored for a shorter duration. Current topics include: Venous Thromboembolism Prevention, Pressure Injury Prevention

Webinars and Virtual Training

All educational sessions can be delivered virtually or as a specific webinar.
