

SMART ROLLBOARDS PARTNERSHIP WITH ARJO

Reducing back strain from lateral transfers

Smart Rollboards require minimal effort during patient lateral transfers. The Rollboard's soft and stable core provides a comfortable and safe transfer for both the caregiver and patient.

With an array of Rollboards, we bridge the gap to all your patient transfer needs.

The Smart Rollboards

Smart Rollboards are particularly suitable for use in Intensive Care and Specialty Units, in the Operating Room and also for Radiology, Urology, Labor and Delivery, Emergency Department and Emergency Medical Services.

All Smart Rollboards are antibacterial, antifungal, radiolucent, MRI safe, antistatic, latex free and have flame retardant surfaces.

All Smart Rollboards come with a 3 year warranty and are FDA listed.
